## A little bit about Ruby...

Ruby came to the centre via The Police after her needs were not getting met in her previous home. Ruby was very underweight and had an untreated eye condition, she really was in a bad way. Ruby was a very scared little girl on arrival and quite overwhelmed by her ordeal. Ruby has put on weight, had surgery on her eye and is now on the road to recovery, all she needs now is to find her forever home. Unfortunately Ruby does come with a little baggage, but she is young and willing to learn so we are hoping once she feels settled, safe and secure she will overcome these. Due to her not having had any socialisation before she came to us, she can be reactive on the lead towards other dogs. She has seen our behaviourist and has a training plan in place, adopters will be expected to continue with her training. Ruby is lovely little girl who has such an enthusiastic approach to life, she is friendly and very loving and just needs a family who will and cherish her. Ruby will need to be the only pet in an adult only home.
