A little bit about Oak...

Oak came to the centre when he was found by a member of the public all alone sat next to his mother and sibling who had sadly passed away. This poor little guy was ever so scared, after loosing his mum like that and finding himself in a strange environment. Slowly as he is settling in he is getting used to humans (we suspect his mum part of a feral colony) and realising it is quite nice getting stroked. Oak is a brave little guy who has been through so much at such a young age. Thankfully he can now start a new life with a family of his own who can help him overcome his insecurities and grow into the wonderful pet we know he can be. He does like playing with his toys and this can help him build a bond with his new family, it would be great if he could go with another cat but not essential. He will need someone who is at home most of the time while he is still so young and who has a spare room they can dedicate to him while he settles in. He will an adult only home.

My personality...

I may be able to live with another cat

I need to be kept indoors until I am neutered

I need an adult only home

I'm a shy guy; I'll need time to settle
