## A little bit about Wendy...

Wendy came to the centre via an inspector after she was found abandoned in a field along with two other dogs, they were all in the most appalling condition. They were so badly matted with mats covering their whole bodies, they could not even see as the matted fur was so tight to the skin. Carefully over a couple of days staff clipped them and relieved them from the pain and suffering their neglect had caused them. Understandably the neglect and abuse inflicted on her by her previous owners has left her very nervous of both people and new situations and surroundings. With lots of TLC and patience, Wendy is slowly learning to trust us and starting to enjoy life. She will need very understanding adopters who will help her overcome her insecurities and show her she can trust humans and learn to enjoy life. Her adopters will need to give her as much time as she needs to settle in to a home environment and become the loving pet we know she can be. Thankfully Wendy now has a bright future to look forward to and is looking for a family who will love her unconditionally. We would prefer she went to live with a confident dog as she does gain her confidence around other dogs, she came in with Shaun and Dougal so could live with them again in a home. She will need an adult only home with a secure garden/yard.
