A little bit about Otis...

Otis is a lovely lad who came to the centre via an inspector after being found living in terrible conditions, poor Otis was also emaciated and shut down. He has settled in great, is putting on weight (although still needs some extra weight on him) and coming out of his shell. He is now a happy little puppy who is now ready to find his forever home with a family who will love and cherish him. He has missed out on so much and is now looking forward to a long, healthy and happy life with his new family. Otis will need adopters who are at home most of the time as he is still very young and not used to being on his own. Otis is suitable to live with other dogs and children aged 8 years and over.
